[Correspondence of the New York Herald]

Revolution in Sentiment in Tennessee

KNOXVILLE (Tenn), Feb 7—The most remarkable change in public opinion it has ever been my experience to notice is the revolution that has taken place in East Tennessee in the prejudice against the negro One year ago when the Legislature of the State had under consideration a bill to give the black man the right to testify in courts of justice, the whole people of this section without distinction of party, cried out against the startling innovation and the legislators, awed for the time, deemed it best to delay the measure until the people were educated to that point The measure was delayed for some months and during the time resolutions and speeches without number were sent to the capital expressing in strong terms the disapprobation of the people, and warning the law makers that their public services would certainly be dispensed with if any such Abolition law were enacted The law was enacted, however—for what purpose, or from what motives, I shall hereafter write—and the negroes were summoned to the halls of justice to give their testimony

The testimony bill was the first step in the great revolution of which I have spoken The mountain counties, where the hatred for the blacks was intense, initiated the revolution, and to day they are as extremely in favor of the blacks as they were one year ago extreme in their opposition One year ago the cry was "D—n the nigger!" "Shoot him!" "Run him out!" "Send him to Africa!" To day the cry is "We will vote with the nigger before we will with the rebel!" Hurrah for the niggers, but d—n the rebels!" "A loyal nigger is better than a rebel!" Extremes follow each other The cry for the blacks is as loud and earnest to day as the hatred for them was intense and bitter a year ago The Legislature has struck the word "white" from the Constitution, and there is now no distinction between the white and black man save in the disability of the latter to act as juror

There was more and bitterer prejudice against the blacks in East Tennessee than elsewhere There is more competition between the whites and blacks in this section than anywhere else in the whole South, because the laboring whites are more numerous This very class, I observe, are in favor of the law, and will accept it willingly This fact, and I give it as a fact, disproves the theory of many close observers and thinkers, that the antagonism between the whites and the blacks is a rooted antagonism Many men of prominence and ability advanced that theory, and still adhere to it Experience proves the contrary There is a class of people in East Tennessee who have been bitterly opposed to the blacks, who really hated and persecuted them Twelve months ago this class hunted them down with force and arms, and in some counties in East Tennessee they were actually forced to leave the country, and yet when their interest demands it they forget all these prejudices, and are the very party to enfranchise them The control of the State, they fear, is about to pass into the hands of their opponents, and to perpetuate their power, they call to their rescue the blacks

Another anomaly in the politics of this State is the view the secession party take of this subject Generally they conclude that if the Franchise Law is to be enforced, their doom is sealed, and their only hope is in securing the control of the blacks, (though they now claim they would rather have the Franchise Law) and this they will in part accomplish, for the blacks, if indiscriminately enfranchised, will be controlled by the *moneyed* men of the State, In some sections such men are Union men, in other sections they are Southern.

Thus it is that this singular spectacle is now presented in Tennessee The blacks are enfranchised, and no serious remonstrances are heard Both parties hope to control the new element—both accept the innovation without resistance.

CLEAR HEADED—A member of the Alabama House thus addressed that body upon the subject of an educational bill

Mr Speaker—Look at the king of the air, the noblest of birds, the eagle of the Alps, watch him as he stands erect, with his proud and noble form on some high point upon the rock of Gibraltar, with a keen eye peeping up at the sun. He looks sleepy, drowsy, droopy, with the dew and mist of the morning covering all over his frosty form Thus he is before the break of day. At length the great god of the morning, as he shines through the mist, warms him up a little, and he begins to feel like soaring upward somewhat, and he does soar, and soar, and soar! away up above the smoke and dust and clouds, kicking back at the thundering noise and rampant confusion and uproar going on below him So will it be with Alabama, if we adopt this law. She will arise in intellect above all the surrounding trash and rubbish which lies piled up about us. But fail to pass it, and you will have to send out of the State for your intellect, and you become "hewers of wood and drawers of water" to those who will educate

"A TORTUOUS AND UNGODLY JUNGLE"—John Bright, in his speech to the people of Rochdale, thus graphically describes the hopeless entanglement of British law

"Everybody knows that the laws of England are a chaos hardly equalled in the world besides, and that it remains very much like what Cromwell described them two hundred years ago, when he said they were a "tortuous and ungodly jungle" They remain very much so now in this country, while in the various States of North America the whole legal system has been codified, so that some men, at least, can understand the law The law of England stands such that no man, not even the great luminary on the Bench, can tell you what the law of England is on fifty questions Take the question of education You will hardly talk to a man in the House of Commons who will not tell you that education is a great question, and admit that very little has been done, and that what has been done has been done awkwardly and expensively, and that something more is required, but I do not believe it is in the power of any Government to pass any decent or satisfactory measure through that House"

A "MODEL REPUBLIC"—There is no government in the world whose credit stands so high in the European market as that of the Republic of Chile The Minister of Finance of Chile made application in London recently for a loan of $10,000,000 and the application was immediately answered by an offer of $35,000 000, and a scramble for the stock at one and a quarter premium Upon this phenomenon the London *Times* remarks that there are concerns by the dozen in the market which not only promise but proclaim greater than that of the Chilean Loan, and yet they are altogether out of favor The difference is simply of course a difference of credit "Investors feel a moral certainty that their dividends will be regularly paid by the borrowing Government, that their principal will be secure—fluctuating in saleable value only within moderate limits, that the investment involves no delusion or uncertainty and that they are under no liability for further calls or demands" Chile on the whole, comes as near to being a 'model Republic' as anything extant It is not only the best governed and most prosperous of the South American States, but it differs from the others in the stability of its institutions and the singular success it has in managing to keep peace within its own borders as well as with its neighbors—*N Y Times*

JOHN BRIGHT AND HIS WORK PEOPLE—The London *News* says

'John Bright has again and again been charged with being unpopular with his work people in Rochdale hooted from his premises, and with placarding his mill with 'No Irish need apply' The slander has been repeatedly disproved yet it is still reiterated by gentlemen acting in holy orders However, now the work people of Mr Bright think it high time to interfere and the other day they met in a body and appointed a deputation to wait on the honorable member from Birmingham to ask him to consent to receive an address from them assuring him of their respect, and regretting the calumnies heaped upon him by various individuals undeservedly Mr Bright consented and the work people are now arranging to hold a meeting at an early day'

An out door relief committee in New York, lately found a girl about eighteen years old, who exists by making trimming at five cents per yard, and is able to make only three yards per day of twelve hours This trimming is sold by the dealers at seventy five cents per yard.

[DISPATCHES TO THE OREGONIAN]

DATES TO MARCH 30.

Congressional.

WASHINGTON March 29—In the Senate petitions and memorials were presented and referred. Among them were several presented by Sherman praying relief from disability under the constitutional amendment known as the 14th article Sherman said he did not believe Congress could relieve any one from disability until the amendment should be adopted The memorials were referred to the Judiciary Committee

Henderson of Missouri from the committee on Indian Affairs reported a resolution authorizing said committee in prosecuting the investigation called for by a recent resolution to call on the War Department to furnish transportation and military protection Adopted

Conness of California, introduced a bill providing for a Joint Board of Commissioners of the United States and England on the phonetic system to report upon the practicability of substituting the phonetic for the alphabet in use Reported

Edmunds of Vermont, from the committee of Conference on adjournment reported that they were unable to agree and moved the following provision which he believed would be agreed to by the House That the President of the Senate and Speaker of the House adjourn their respective houses until the first Wednesday in July The quorum of the House present, shall adjourn without delay Several amendments were rejected

In the course of his remarks, Wilson, of Massachusetts said he wished to remain here to settle the question of universal suffrage

Dixon, of Connecticut asked if Sumner and Wilson meant to pass a law to enforce negro suffrage. Sumner said certainly he did He had no doubt that under the recently adopted Constitutional Amendment they had the right to pass a universal suffrage bill

Edmunds proposition was adopted by 10 majority After an Executive session the Senate adjourned

In the House the Speaker being absent in consequence of illness in his family, Boutwell was called to the Chair

The Senate bill to reimburse Ohio and Indiana for moneys expended for the United States in enrolling and equipping and provisioning militia during the rebellion passed by 21 majority

The Senate bill to grant the American Atlantic Cable Company the right and power to lay and operate submarine cables on the Atlantic coast, and to establish a telegraph between the United States and Europe via Bermuda and the Azores passed.

Clark, of Kansas, offered a resolution relating to adjournment, After the debate had become general Hill, of New Jersey, offered a substitute which was adopted by 62 majority It provides that the House adjourn to morrow at three o'clock, to meet on the first Wednesday in July when if there be no quorum both Houses shall adjourn till December

Clark offered a resolution requesting the Judiciary Committee to report on the impeachment question on the first day of the adjourned session Agreed to.

The Senate amendment to the adjournment resolution was concurred in by eight majority Adjourned

WASHINGTON, March 30.—On motion of Howard, the Secretary of the Interior was asked for a copy of the last report of the Union Pacific Railroad The resolution introduced by Mr Cameron, yesterday, to inquire how much money has been paid to the Baltimore & Ohio Railroad during the war, was amended so as to include the Pennsylvania Railroad

The rule of the executive session, requiring the nominations enacted on to be returned to the President was rescinded in order to allow the pending nominations to continue until action is had

The House resolution for the appointment of a Standing Committee on Ordnance, was amended so as to provide for a special Committee to take testimony for the best improvement in arms and allowing them to send for persons and papers

A resolution was adopted for a Joint Committee to accompany the remains of Senator Riddle home

Mr Sumner gave notice that on the first Wednesday of July he would call up the bill providing for universal suffrage throughout the United States He had reason to believe there would be a quorum present

Mr Thayer called up the bill to extend to Nebraska the privileges of the act granting land to establish agricultural colleges, which was passed

After an executive session at noon, the doors were opened and the Vice President declared the Senate adjourned until the first Wednesday of July

In the House, Mr Thomas presented a memorial from members of the City Council of Baltimore asking Congress to assist the people Maryland to form a Republican State Government in consonance with the spirit of the age Referred to the Judiciary Committee

Mr Belknap asked leave to offer a resolution of thanks to Gen Sheridan for removal of officers of New Orleans Mr Wood objected

The Senate resolution relative to the removal of certain Indian tribes was tabled

On motion of Mr Boutwell, the Judiciary Committee were authorized to sit during the recess to investigate the affairs of the Union Pacific Railroad and to send for persons and papers Several Senate resolutions were postponed and bills were passed

Mr Schenck asked leave to offer a resolution to investigate the management of the Military Academy Mr Ross objected and the House refused to suspend the rules. The Senate bill to regulate the sale of abandoned lands in South Carolina, to soldiers and sailors was referred to the Committee on Claims

The Senate joint resolution providing for the transportation of troops by the Isthmus route to the Pacific States, was referred to the Committee on Military Affairs.

Washington News

NEW YORK, March 29.—A special dispatch to the *Post* from Washington gives a rumor that the trial of Jeff Davis will take place in May

The debate in the Senate on Wednesday concerning the Union Pacific Railroad brought out statements by Howard, of Michigan Harlan, of Iowa, and Thayer, of Nebraska, that work had been suspended on the road because it was found impossible to do shallow grading during the season of frost The company has iron enough on the ground to lay the track from Fort Laramie across the Plains They had been prevented from working in the mountains in the winter because of the delay of the Government to fix the point at the base of the mountains at which the subsidy $48,000 per mile begins

New York, March 30.—The *Tribune's* special says it is understood that the President will issue a proclamation to morrow reconvening the Senate for Executive business, which is likely to keep them a week The President has intimated an intention to pocket the bill restoring the award to loyal slave owners for slaves who enlisted in the army and that giving Tennessee ten thousand stand of arms

Teapot in the Treasury Department

Mrs Ingersoll, a Washington correspondent of the Boston *Advertiser*, and a clerk in the Treasury Department, writes to that paper as follows on the much discussed subject of "the teapot in the Treasury"

In the first place, *those who know best* are sure that the threatened dismissal arose from the pressure of applications for the place, and the Secretary had said that he was obliged to do something to relieve himself of them—something that should "let all the world know" that it was useless to seek the places In the next place, about the teapot, I will "a round unvarnished tale deliver" In one of the best bureaus, from one of the best heads (a gentleman, of course), there came a suggestion, one day, to one of the ladies that she should get up a "tea club," and said suggestion was made several times by the gentleman before the lady carried it out, and after the club was formed, there were more gentlemen belonging to it than ladies. One of the gentlemen was the excellent John Pierpont, who for many months made the lunch hour agreeable by his unfailing vivacity, ready wit, anecdotes and occasional poetic recitation He always seemed to feel under especial obligations to the ladies who made the tea—so acceptable where the customs of business allow but two meals a day—and apparently felt bound to repay the favor by bringing to the lunch-table some mental food seasoned with the Attic salt with which he was so well supplied.

Now, do you think, Messrs Editors, that ladies should be reproached for the 'teapot in the Treasury' under these circumstances? It is true that if ladies were not here the gentlemen would not have their tea made for them, and it is true also that whenever and wherever ladies go to work by the side of men some modification, some feminine influence will go with them I think the carpet on the room I am sitting in, the diminished tobacco juice on the floor, the respectable and decorous attitude of the gentlemen at their desks, the refined and agreeable aspect of the whole room may be largely due to the fact that there are matrons and maidens sitting at desks at one end of it, and I will venture to assert that not one of these ladies for the two years they have been here, could or would say that from the position of co-worker with men there had arisen one *thing* to wound the delicacy of the most sensitive lady, nor would a careful mother feel that her daughter was not as much shielded from harm here as she could be in the quietness of home Across the hall, where clerks have been coming and going for two years, we do not even know them by sight. I went to the blue book one day for the address of a gentleman who had been at our house, and discovered that he had been for more than a year in the room opposite At the farther end of this room I could not tell the names of the clerks sitting there, unless I went to the records of the bureau. Such is the state of things in this Treasury Department, a place where I have carefully watched the experiment of woman's work for more than two years without witnessing the shadow of an indecorum, and where, I venture to say, there are more really superior women together than can be found under any other roof in the wide world to day.

FROM OWYHEE

We obtain the following from the Owyhee *Avalanche* of the 23d of March

LABOR PROSPECT

An assay of ore from the Leviathan Ledge, in Flint, by King, Webb & Co gave at the rate of $1,049 34 per ton in silver, with only a trace of gold We are credibly informed that the samples assayed were of a good class of the ore but not of the richest specimens Some of the quartz is said to contain ruby silver—none of which was included in the assay to which we refer Messrs. Hueist, Stewart and Warnkee are the principal owners in this vein.

WEB FOOT MILL

R. B Royer and others have procured a lease of the New York ledge—lying just West and parallel with the Oro Fino and are at work on it. They intend supplying the Web foot mill with it as soon as winter ceases The ore of this ledge is said to pay an average of over forty dollars per ton, and that this knowledge of its value was obtained by milling something over one hundred tons. The lessees are practical miners and laboring men, who make full hands either in the mill or mine

MILL IN BLUE GULCH

We have it from one of the interested parties that a quartz mill of some size will be put up at the head of Blue Gulch the ensuing summer, and will be supplied with ore from the Oneonta, which has been opened up so as to show it to be a large one of paying quartz Last fall four hundred dollars' worth of labor was expended upon the Oneonta, and considerable of milling ore is already out. The tests made of the ore were ... ful and consisted of assays hand mortar and mill. The practical working tests gave results of from $45 to $300 per ton The mill site is one of the best in the country Plenty of fuel and water right on the ground, and the usual heavy cost of the transportation of ore and wood will be ... saved. With the natural advantages of the place fifteen dollar ore can be milled to advantage.

POORMAN

We have it from parties whose connection enables them to speak knowingly that the sum of $20,000 has been raised to develop the extension of the Poorman sold this winter in New York. The facilities for running a tunnel are the best in camp, as the brow of the mountain is very abrupt near the claim Confidence is strong ... the vein will be easily reached and found to be very rich.

VULCAN

Since our visit to the works of this vein ... tunnel has been advanced about ten feet, and the nature of the ore much changed It is two ... wide, of a dark antimonial and galena ... ance. It is believed to be quite rich, and ... working experiments will be made the ... week

RATTLER

A ledge discovered in Flint on the 15th, ... been christened as above It is reported ... four feet between casings and a sample of the ... brought to our office is well filled with ... phurets and differs but little from the com... character of quartz in that district We are informed that free fine gold is visible in ... which is an important element The ... before us bears a slight copper stain and is ... ally sprinkled with pyrites The vein ... head of Black Warrior Gulch Messrs A... and Boyer are the discoverers

LAND SURVEYS.

Mr. O A Palmer has recently returned ... Boise City, and from him we learn that ... ALTITUDE

We have often been asked the altitude of ... vicinity, and we'll now give the best info... in our possession on the subject Lieutenant Colonel Williamson gives it as 4 664 feet at "P... City or Camp Lyon" Whether he took ob... tions at both points and found the height ... same at each as his report indicates, we do ... know, but incline to the belief that he made ... instrumental measurement at Ruby, and that the altitude is greater here than at Camp Lyon. We have no doubt that his report is correct as ... to Camp Lyon and Hall's Ranch, the two ... points to this place, the altitude of the former is given at 4,664, and the latter at 4 665 from which each one familiar with the country can make an estimate of the height.

INDIAN RAID

The following is the latest on the Jordon Valley Indian raid, by Mr W ... Hill

BAXTER'S RANCH March 21st, 1867.

ED. AVALANCHE—On the night of the 15th inst., the Indians made a raid in Jordon Valley, breaking the comparative quiet that prevailed here since the advent of General Crook The "noble red men," numbering five or six, on this occasion, drove off five horses and six hundred cattle, most of them from Hill's Ranch on Trout Creek. The 17th inst, six soldiers from Camp Winthrop and six citizens from the valley started in pursuit, and last night were encamped on the trail, on the opposite side of the Owyhee River, about eight miles above the ferry Jack Manning and a soldier came down to the ferry last evening—reporting that their party were close behind the Indians, expecting to overtake them by a few miles travel up the river Jack returned to the party this morning, accompanied by Professor ... O Holgate, who in the meantime suspends his geological pursuits, eager for a battle with Mr Lo.

A MORMON ON BABIES—The editor of the Salt Lake *Telegraph* is an ardent defender of the practice of polygamy He regards a plurality of wives as the practical solution of the problem of the "social evil," and the adoption of that system as the only means by which the degradation of women can be prevented In a recent article on the disinclination of the Gentiles to become parents, as manifested in a certain department of the criminal calendar, he thus expresses himself concerning a portion of the species whose individual advent is liable to be frequent in Mormon families:

"As for us, we are never afraid of meeting baby, night or day, it is such an engaging creature, and so handy to have in the house In fact it is one of the chief charms of home to us We can't abide a house, our own at least, without a baby in it. We have tried our best, and we are proud to say with flattering success, to have our humble domicile constantly supplied with the interesting and delightful article We glory in the work, and we mean to continue our efforts as long as we live in this world, and in the next, too if it shall be in order there, and we trust it will"

Somebody says you don't like our sham Democracy and my debasement, and that you have said so! Speak up quick and either endorse us or be kicked out. W. H S"

Reply first intended:

"Sir I decline either answering an anonymous accuser or being kicked out. You know perfectly well that I am not such a ninny as to express the sentiments which I, in common with all right, decent-minded men entertain toward you and the President. The military rule which precludes an inferior officer from either praising or censuring his superior officer has always seemed to me equally applicable to the diplomatic service It has been my guide, and will be while I remain the representative, not merely of the administration, but of the nation to which I owe my commission. When you ask my opinion as to your degradation or the President's Democracy, it will be my duty to express them Meantime, I remain at my post until recalled. J L M"

MONDAY MORNING, APRIL 1 1867

Navigation of the Tualatin River.

Recent developments indicate that the navigation of the Tualatin river is not an enterprise to be derided, but that it will be at least measurably successful. The stream has been cleared of drift so that it is navigable for boats of thirty or forty tons as far as Hillsboro, on one of its branches and to a point within two and a half miles of Forest Grove on the other The north fork, it is said will be cleared of drift so that boats can run to Centerville, some four or five miles above Hillsboro. It is proposed by those who are engaged in the enterprise to deliver freight in Portland from any of these points at six dollars per ton If this can be done, and there seems to be no reason to doubt its practicability, the navigation of the Tualatin will prove of great advantage to the people who occupy the good farming country through which that stream takes its course Hitherto they have been practically cut off from market for half the year; but if in the winter season they can hereafter ship their produce to Portland at the rates above mentioned, they will find the arrangement highly beneficial to their interests That the stream will afford navigation for six or eight months during the year is an established fact The energy that demonstrated this in the face of such great difficulties is highly commendable During the summer season hauling is comparatively easy from the Plains to Portland, but even then it is difficult enough. Transportation for the winter months is a great *desideratum*, since the occupations of the farmer during the season of good roads are such as to leave him little time to haul his produce to market.

OUTRAGEOUS.—An article appeared in the *Herald* of Sunday morning, in relation to the present religious movement in this city, which nothing can justify. Its tendency is to ridicule the most sacred things, and to interfere in an unwarrantable manner with the free exercise of religious opinions. The writer more than intimates his belief that the religious interest now manifested is merely "spasmodic," and that it will not conduce to the "permanent morality" of the community. A more liberal view would have taught him that no one individual is made to be a judge in these weighty matters for others. He condemns the manner in which the exercises are conducted, forgetting again that people have a right to act in these matters as their own conscience may dictate, and that a sense of decency, which all should possess, ought to protect them against insult. If there is any person who disapproves of these religious exercises, he can keep aloof from them, and it is not his province to sneer at those who attend them as persons who are "crazed with religious enthusiasm," whose conduct is "offensive to public decency" and "at best a pharisaical affectation of humility." This is unjustifiable when spoken in private; but when uttered through the columns of a public journal it is nothing less than grossly outrageous. One may disapprove of these meetings and hold what opinions he pleases as to their propriety, but it becomes no person to set up his own views of such matters as a guide for others, and to denounce them as "fanatics" if they do not make their opinions and conscience conform to his own.

The "organ" says:

Attacks upon private character on account of political differences is a practice which belongs exclusively to the baser sort of Radical papers.

Indeed! Let us inquire a little into this. Will this censorious individual turn back through his own files to his issue of the 4th of December last and ponder upon these choice extracts:

Charles Sumner, the Radical model of elegance and refinement, is a pallid victim of one of the unnatural crimes which brought down the vengeance of the Almighty upon Sodom, Thad. Stevens is a debauchee without shame; Ben. Wade is a man of the most brutal instincts and manners; Zach Chandler is a filthy sot, the boon companion of negroes and pickpockets, Yates, of Illinois, is addicted to every kind of social vice, Morton, of Indiana, is the victim of loathsome disease, the result of his own vices, by which he is a crippled and fetid, noisome object to all with whom he comes in proximity.

By going through the files of the "organ" for a year past, these elegant extracts might be multiplied indefinitely. The "private character" of every prominent Union man in the nation has been assailed in a similar style by this filthy writer, and the sole motive for it arises from "political differences." The above single passage from one of his editorials is quite sufficient to give the "organ" the character of a "Radical (Democratic) paper of the baser sort." And yet this dirty vagabond takes it on himself to lecture others on "decency." Rev. Mr. Chadband, the model hypocrite, is no doubt the character whom he essays to imitate.

Some days ago this paper made the following statement.

Mr. Councilman Fechheimer arose in his place in the Council last Friday evening, and stated that the offer of the *Herald* for the ensuing year was only about half what was paid last year to the OREGONIAN, and that it should therefore be accepted.

The "organ" reproduces this statement and remarks:

Mr. Fechheimer stated no such thing. * * * Every man present in the Council chamber at the time knows the statement of the OREGONIAN was utterly false. If the statement had been made upon false information or by mistake, there has been ample time since to correct it and it has not been done.

No sir; no "correction" has been made, because our former statement was strictly true, At the last meeting of the Council Mr. "Nobody" Fechheimer denied that he had made the statement we attributed to him, and undertook to prove that he had not made it. This somewhat important point, (important as involving a question of veracity) he failed to establish. Mr. Fugleman Hallock came to his relief with a poor sort of exculpatory story, but this weighs nothing against the positive testimony of others to the contrary If any one is in doubt about the matter let him read the Council reports as published in the Saturday morning papers If a "falsehood has been manufactured out of whole cloth" Mr Councilman Fechheimer and the editor of the "organ" must settle the matter between them. Will not the Councilman "rise to a question of privilege" again?

A resident of Jordan valley, having found that fighting Indians with a Henry rifle, is at best an unpleasant and unsatisfactory business, sends after "Lo" a volley of verses, parodied from Pope's Essay on Man. If this sort of warfare is to be resorted to, the "noble red man" will be compelled to quit the field altogether. Here are the verses:

Lo, the poor Indian! whose unscrupulous mind
Steals our best ox, nor leaves a horse behind;
Oh, no! his soul was never taught to stray
Into our corral at close or break of day.
Upon the cloud-top hill all day he lies—
At night he steals what in the day he spies
Then hurries off his *illicums* to meet,
Eating as they kill, killing as they eat
They then once more their lovely squaws behold,
Enjoy connubial bliss, nor thirst for gold
To steal's not half their natural desire,
'Tis their delight to set a house on fire,
And shoot the inmates who attempt to flee,
Old Belzebub bears them company!

THE NEWTOWN PIPPIN.—The original tree of the Newtown pippin, of world wide repute, was a seedling, which grew near a swamp in Newton, Long Island, about the year 1700, on the estate of Gersham Moore, and the fruit was called the Gersham Moore pippin for a long time The tree lasted over a hundred years, and finally died from excessive cutting, it having been much resorted to for scions to graft with

STATE ITEMS.

A revival meeting is in progress at Howell Prairie, Marion county

Eight Chinamen were frozen to death on the Meacham road crossing the Blue mountains during the cold weather about two weeks ago

Lieut Charles Herbert formerly of the 1st Oregon Cavalry is now in command at Camp Arizona Dr Walker formerly of Camp Watson, is A A Surgeon at the same post

The Capital Brass Band of Salem are working hard to perfect themselves in the use of their instruments says the *Review*, and no doubt will compete for the prize at the next State Fair

The Dalles paper states that two thirds of the travel this season so far has gone to the John Day mines, adventurers preferring to risk their chances in these localities to the Lemhi or Montana mines

The *Mountaineer* noticed a few days ago a party of six families with their wagons, fitted up for the journey eastward across the plains. We venture these people never visited Webfoot if they had they would never have thought of returning to the East

A map of Cuttingsville situated in Mill creek in Clackamas county fourteen miles south east of Oregon City has been prepared and sent to the County Clerk's office for record The proprietor publishes the following Any mechanic who desires to go into business at Cuttingsville and will construct a building for such purpose can have one lot or a half acre in size free of charge

Much religious interest has been felt for some time past in several communities in Washington county In one neighborhood a few miles West of Forest Grove sixty or eighty persons have professed conversion and a large church has been formed This movement we are informed is under the auspices of the denomination of United Brethren At Forest Grove much religious interest has been manifested during the winter and a series of meetings are still in progress there

Several persons not long ago at Albany went to the house of one M'Ilwain in the night time dragged him out of bed and into the street and gave him a severe whipping with a couple of raw hides tied together The reason for this proceeding was that M'Ilwain was charged with enticing two little girls into his shop and taking indecent liberties with their persons The men who administered the whipping were indicted for riot, and the jury punished them with a fine of $50 and costs

We are willing that the *State Rights Democrat* should transfer our leading editorial articles to its own columns but we would greatly prefer to see the proper credit given In the issue of the *Democrat* of Saturday last, we find an article appropriated entire from our editorial columns and published as original in that paper without a word of credit We caution the *Democrat* in a friendly way against continuing this practice, as one of these days it may be led thereby into giving its Confederate readers some good Radical doctrine

The *Review* states that the freight warehouse of Usaforage & Wright, at Salem, has been extended some fifty feet Its dimensions as it now stands being 175 feet by 35 These gentlemen have spared neither money nor labor to make their building commodious enough for the shipping trade and of easy access to teamsters Wagons can now drive through the whole length of the house and deposit their loads within easy reach of the boats which will expedite business in a more satisfactory manner to all parties than when the "Ark," or Wharf Boat was the only store house for freight.

There are in Clackamas county according to a statement in the *Enterprise*, eight (if not ten) flouring mills The first of these is the Imperial Mills of Oregon City, running six set of burrs second, the Standard, at Milwaukie, with four sets; third, Egan's mill, two set, on Butte creek, fourth, will include Cutting's mill and Howard's mill on Mill creek; Harding's, on Clear creek, Foster's on Eagle creek; Knowlan's on Butte creek, and Durham's, just above Colfax—all one set of burrs This number of mills have a capacity for flouring grain in about the following proportion annually: Imperial mills, 200,000 bushels, Standard 175 000 bushels; Kagan's 70,000 six others, each, 20,000—120,000; total, 565,000 bushels

The *Enterprise* says that 75 tons of coal have been taken out of the Butte creek mine, and awaits transportation The same paper adds. "The coal seems better to us than any we have ever seen in Oregon We wish the company every success, and hope they may hasten matters The few tons the company have out, is only a beginning of the work of tunneling the mine—as the development progresses it is reasonable to suppose that a better quality of coal will be produced The value of such a mine so near to Oregon City our citizens will readily see. If the article proves to be what is desired it can be shipped to Portland for use in the Gas Company's works or foundries at less expense than they can obtain coal from any other source. We wish to see the Butte Creek Coal Company soon erecting large docks along our river front, and despatching their lighters daily for the Emporium

The *Mountaineer* of Saturday publishes the following news received by the Canyon City stage Colonel Baker returned to Camp Watson after an eight days scout He saw Indians at a distance, late one afternoon, and gave chase, but the Indians, knowing the lay of the land a little the best, eluded him and after dark came within speaking distance and blackguarded him. In the morning, Mr. Lo and family were somewhere else On Saturday night last, Lieutenant Western, of Camp Logan, with a small party of his command, were camped on the South Fork, where the Indians were bold enough to let the bars of the corral down, and had not the horses been tied, would have succeeded in driving them off Failing to get the horses, they had to take something else, so they stole a lot of carpenter's tools from John Smith, who is building a bridge across the South Fork Lieutenant Western, at last accounts, was endeavoring to find the missing tools On Sunday morning plenty of fresh Indian tracks were discovered in the vicinity of the Cherry Creek House

From a letter published in the *Advocate* we obtain the following in regard to Coos county Empire City is a pretty little seaport town, situated on the south side of Coos Bay, about four miles east of its mouth. It is quite a thriving town, has three stores, two saloons and three hotels The county of which Empire City is the county seat, consists of Coos river valley, which is settled twelve miles above its mouth, and Coquille river valley, which is settled for seventy miles from where the river empties into the ocean There are two large saw mills on the bay which employ from twenty five to thirty hands each besides many who are employed in rafting and cutting logs to supply the mills The two valleys alluded to are being settled up fast and the large trees are made to feel the woodman's axe, that room may be made for the cultivation of the rich soil Randolph is another place of some importance It is situated near the mouth of the Coquille river There are some good mines here. There is a report that new diggings have been discovered near by, but I shall not place implicit confidence in it until confirmed by more thorough investigation. The Coquille river is navigated by one small vessel, of forty tons, and it is reported that another will be put on to ply between its mouth and San Francisco, next summer

Why the Government Survey of Darien does not go on

The reply to the resolution of the Senate of the 2d instant, asking information on this subject, was sent in on the 6th of February. Mr Seward relates, in substance, the following facts

On the 16th of March last the Minister from Colombia made these propositions to the United States, "subject to the approval of the Congress of Colombia," undertaking to transmit them promptly to that body on learning their conditional acceptance by the United States

First—The United States of Colombia offer to the United States the privilege to survey and explore any portion of the Isthmus

Second—Colombia will zealously co operate by granting all the necessary authorizations, aid and comfort within its power, supplying maps, charts, surveys, reports and plans, etc, to the expedition.

Third—In view of the hostility of the Indians, the United States "may unite with the expedition a force sufficient for its protection, said force not to exceed one hundred and fifty men, unless actual forcible resistance by the Indians should make an increase necessary, in which case the force is not to exceed five hundred men"

Fourth—The United States of Colombia grant to any organized company of citizens in the United States the right of priority to construct and use an inter-oceanic ship canal within and across the aforesaid territory, with all the necessary lands and collateral privileges to make it effective

On the 19th of March, Mr Seward advised the Minister from Colombia of the President's acceptance of the offer, and he now adds that no further information has been received from the government of Colombia The Secretary again "addressed the Minister from Colombia on the 23d of November last, asking what action, if any had been taken in the premises by the Congress of Colombia No reply has yet been received to that communication "

In the lack of all further information bearing on the subject excepting the late rumors of some difficulties on the Isthmus relative to the transit of the mails, we can only regret the suspension of the survey to this late period of the proper season for work in that climate The disposition of the authorities in New Granada has been courteous and favorable to the various projects heretofore submitted to them. So far back as 1840 C Fenton Mercer, in presenting a report to the House of Representatives on this same ship canal scheme, said "the Central American States had demonstrated their sense of its importance, and a disposition to waive for the welfare of mankind every narrow and local interest "

The salary of the Governor of Maine is to be increased

A NEW TOWN SITE.

At the urgent request of many friends the undersigned have located a Town Site, one mile below St Helens at a place known as Caples Woodyard, on a donation land claim where the title to lots can be made good without litigation—where the beauty of location is unsurpassed on the Columbia River for such purposes We propose to give every alternate lot to any persons who will build a house or other buildings upon the same And to any company on the coast wishing to locate or improve at this point, we will give a liberal donation of land

SAN FRANCISCO ASSAYING AND REFINING WORKS.

No. 416 Montgomery Street,

(*Successors to Kellogg, Hewston & Company*)

CAPITAL STOCK, $1,000,000!

Directors:

JOHN PARROTT CHAS R McLANE,
WM C RALSTON A HAYWARD
LOUIS A CARNETT

LOUIS A CARNETT President and Manager
JOHN HEWSTON Jr Chemist and Superintendent.

THIS COMPANY HAVING GREATLY enlarged their Refining Works, and introduced many other important improvements, are pleased to announce that they feel warranted in again reducing materially their terms of doing business

THE TARIFF OF CHARGES

Which they now submit to the public—considered with reference to the cost of material and labor—is lower than in any other part of the world, and secures to the mining interest of this coast an important increase in both the minting and commercial value of bullion

Their charges hereafter will be as follows:

FOR ASSAYING DEPOSITS FOR UNPARTED GOLD BARS

One eighth of one per cent (heretofore a quarter) for all amounts over $1,000, and two dollars for any smaller sum Returns made in twenty four hours

FOR ASSAYING DEPOSITS FOR UNPARTED SILVER BARS

Two dollars for the gold contained, up to $1,000, and one-eighth of one per cent for all amounts over that sum, and one per cent on the silver contained Returns made in twenty four hours

FOR REFINING DEPOSITS MADE FOR COIN OR FINE BARS

On bullion under 300 parts gold, 2 cents per ounce

On bullion from 300½@600 parts gold, 4 cents per ounce

On bullion from 600½@750 parts gold, 6 cents per ounce

On bullion from 750½@940½ parts gold, 8 cents per ounce

Above 950 the only charge will be for coinage. But there will be no charge for refining less than two dollars

FOR COINING GOLD

This charge will be the same as at the Mint—a half of one per cent.—and which is paid by us to that institution But there will be no charge in future for making fine gold or silver bars from bullion refined by us.

RETURNS IN COIN IN FORTY-EIGHT HOURS.

Silver contained in deposits for coin will be accounted for at the same rate customary at the Mint

Gold bars of other Assayers, in good standing, will be cashed by us at the highest market rates.

Dust and bullion can be forwarded to us from any part of the country, and returns made through Wells, Fargo & Co 's Express

CHARGES AT U. S BRANCH MINT.

For the convenience of those not familiar with the terms of the Mint, we subjoin the tariff of charges now in force at that institution

For refining bullion under 800 parts gold, 3 cents per ounce

For refining bullion from 300½@600 parts gold, 5 cents per ounce

For refining bullion from 600½@750 parts gold, 7 cents per ounce

For refining bullion from 750½@830 parts gold, 11 cents per ounce

For refining bullion from 830½@949½ parts gold, 14 cents per ounce

The charge for coinage is half of one per cent , and the charge for making fine silver bars the same.

Comparing the net value of deposits for coinage, with the proceeds of unparted gold bars sold in the market—assuming that the bars have cost ½ of one per cent.—they must be sold at the following par rates to equal the return which would have been made had they been deposited for coinage

850 par to equal Mint return, at refining charge of 14 cents

846 par to equal Mint return, at refining charge of 14 cents

855 par to equal San Francisco A. & R. Works return, at refining charge of 8 cents

A VALUABLE INVENTION.

THE UNDERSIGNED CALLS THE ATTENTION of smokers to the celebrated

PATENT DOUBLE-TUBE PIPES

Which he is now importing and which are recommended to all smokers Its peculiar merit consists in the use of TWO TUBES, the one for the smoke alone and the other for the passage of the saliva and the nicotine to the cup at the bottom, whence it is discharged The smoke being thus kept clear of contact with the saliva, is always delicious and pure in its odor, and the collected matter which renders all other pipes offensive being entirely removed the pipe will always continue sweet and agreeable It gives to the smoke the pure exhalation of the tobacco free from its noxious nicotine; it possesses merits never before obtained in pipes

A leading eastern journal says of this pipe "Its merits are incontestably proved by the fact that it is permanently superceding all others in use "

Another great advantage in this pipe is that the smoker can easily take it to pieces If the draught becomes obstructed you can withdraw the stem and re open the upper tube of the bowl without emptying it of tobacco

MEETING OF THE BOARD OF DELEGATES —The Board of Delegates of the Fire Department had a meeting on Saturday evening, at which the following business was transacted Reports were received from the several companies naming certain members entitled to exempt certificates, as follows A J Remington, M S Burrell, ... J J Meagher and Geo. T Meyer, of Willamette No. 1; & B Stuart, and J Bachman Multnomah No. 1; John Thompson and D. Farg-Aly, Vig II ... A communication was received from ... containing charges against W O Bruen ... accusing a member and officer of the Fire ... The Secretary of the Board was instructed to furnish the ... with a copy of the charge and to notify him to appear and answer thereto at the next meeting. A proposition from Messrs Nabl Bros, of ... to execute 500 exempt certificates and to change the design of a plate for the department, was referred to a committee consisting of Messrs Ziebar, Hodgkinson, and Webber, with instructions to have the work done.

CAPT. T. J. ECKERSON —An item appeared in the Vancouver Register of the 30th, and was copied into the ... stating that Capt T J Eckerson would ... be retired from active service on account of ill health. Capt. Eckerson is now in this city and in the enjoyment of his usual good health He was ill while stationed at Fort Boise, in consequence of unfavorable climatic influences, and was relieved from duty at his own request. Since his arrival here, however, his health has been restored and we learn that he is ready and anxious to be placed immediately upon active duty He does not seek retirement and should the Retiring Board of the division place him on the retired list it will not be with his assent, nor in accordance with his desire.

ARRIVED FOR PORTLAND.—The Continental sailed from San Francisco, yesterday, for Portland with the following passengers J B Congle and wife, J Kannon and child, Mrs J Biery, Mrs Renstein and infant, L Passer, M Harker, L M Cosen, W Ottenheim, Kerschmer, A B Elfelt, S L Stone, Mr Thompson ... L M Lyon G W Ruggles and wife, Isaac Ball, J ... and wife, A Burchardt, Jas Watson, A S ... E L Udd, B Barker, Mrs L Martin and child Mrs ... child and two infants, J Keeney, C Homan ... T S Look Chas Royal, B Stetman, George ... W Currier, Mrs L Hartnall, Miss K Andrews, ... J M Breck, Joel Taylor, Miss M Baker, Miss ... E Newbauer, J B Carman, Thos Bethany ... Freight, 800 tons

THE PRIZE DEBATE —The Portland Library Society, ... had a prize debate last evening on the resolution "That commerce has done more to promote civilization among the Nations than the invention of the art of printing" The disputants were, in the affirmative, Rev. Dr Schwab and Mr Kapus; in the negative, Messrs. Walther and Schlessinger The judges, of whom there were three, decided in favor of the affirmative and awarded the prize—a beautiful silk hat of Meussdorffer s to Mr. Kapus A good deal of interest had been taken among the members and their friends and a large audience was present to listen to the argument.

... TO-DAY.—S H Miller lately from ... was arrested on Saturday on a charge of larceny and taken before Justice Anderson who continued the case till to-day at 10 o'clock A M without taking testimony. The charge against Miller is for appropriating to his own use the property of a woman with whom he came from California on their way to Seattle, where he has a brother living Miller and the woman who calls herself Mrs. Nellie Kingsbury, had been stopping at the Western Hotel, during which time the wrongful ... of the property is alleged to have taken place.

THE REPORTED SMALL-POX CASE.—The Mountaineer states that Charles Gren, the man who had the small pox in that city has recovered and gone up the country That paper adds that this is the only case of the disease or anything like it that has occurred at the Dalles, and that the letter published in the OREGONIAN of the 27th ult., at that place, was "an entire fabrication." In justice to ... we must state that the letter in question was written by a person who called himself "Dr Wagner," and his card accompanied the communication ... all the statements were correct. We are glad to ... the necessary correction

... ITEMS —The Enterprise of Saturday says ... Bradbury, of the Standard Mills at Milwaukie, is now filling an order for flour received from his old home, Portland, Maine. The steamers now in port will take a large shipment This may be considered as further evidence that Clackamas county flour will go through the tropics without baking On Thursday last a fire broke out in the Standard Mills at Milwaukie, but was extinguished before doing material damage.

... SCHEDULE TIME —To-day, April 1st, the schedule time for mails between Lincoln, California, and ... changes back to seven days. It usually requires about a week to make all the necessary alterations and arrangements for connecting along the road, so as to have the arrivals regularly within the schedule time. It is no doubt be done this spring in a shorter time than usual, on account of the unusually good condition of the roads.

... MEETING —The annual meeting of School District No. 1 will be held at the old school house corner of ... and Madison streets, this evening to take into consideration the question of levying a special tax to build a school house on Block 80, Couch's addition An election will be held for one or more Directors and a school clerk. A full turn out of tax payers is requested

A LARGE DROVE OF SHEEP —Messrs H G Hadley and R C Owen of Lane county who are largely interested in sheep raising, drove down to the wharf, yesterday afternoon, a drove of six hundred sheep, which they are sending east of the mountains. Among the number were some very fine ones

LAST CALL FOR ONE.—On Saturday we published an item stating that that day was "the last day of grace allowed to delinquent tax payers The item does not apply to city taxes, but to State, county and such others as the Sheriff collects. The time for paying city taxes does not expire till Thursday, April 18th

TO SAIL.—The Oriflamme will sail for San Francisco to-day at 3 o'clock P M The Idaho will sail for the same port on Tuesday, the 2d inst at 3 o clock P M The Fideliter is advertised to sail for Victoria on Wednesday, the 3d inst. She left Victoria yesterday for this port

"LO, THE POOR INDIAN "—An Indian was arrested Saturday night by officer Townsend for breaking glass in the front door of Yo-Long's store on Alder street Another Indian was arrested for being drunk and lying on the side-walk on Stark street

PASSENGERS ARRIVING AND DEPARTING —During the month of March just past, the numbers of passengers leaving this port by ocean steamers were 513. During the same time there arrived by ocean steamers 1 257 Excess of arrivals, 744

TREASURE FOR MARCH —The arrivals of Treasure to Wells, Fargo & Co during the month of March were $322,000 During the same time, the shipments to San Francisco, were $327 000

... COURT —On Saturday Michal O Brien pleaded guilty to a charge of being drunk and disorderly on First street, and was sent to jail for two days in default of a fine and costs.

STAVE TIMBER.—The steamer from Astoria arrived Saturday evening towing a barge loaded with one hundred and thirteen cords of stave timber for McCraken Merrill & Co's barrel factory

... R. Blackwell who was injured a few days ago at Oswego, by the falling of a derrick, died on Friday from the effects of his injuries He leaves a wife and two children.

... RECEIPTS.—The receipts of produce by the ... Saturday, March 30, are included in the Produce ... for the month

... COURT —The county court for Multnomah county will be convened at 10 o'clock this A. M.

OREGON CITY ITEMS.—From the Enterprise of the 30th we clip the subjoined items The County Court, Judge W T Mattock presiding, convenes on Monday next at 9 o clock A M Members of the Clackamas Club are called to meet on Tuesday evening... The committee to organize the County Fair will there be enforced, meet at two o clock on Tuesday ... Kelly has had on exhibition at his store in this city for a few days past one of the largest and most frightful cougars we have ever seen It was killed in a recent hunt ... on the 19th day of February by a Mr Strickland of Spring Water precinct This ugly monster had very powerful arms ... fore ... Its body three feet in circumference Its aggregate length seven feet six inches On last Tuesday evening a party of gentlemen arrived in this city in search of James Gordon Cooper who had assaulted Mr Robert Warren a farmer of Linn county and nearly killed him on the afternoon of Saturday while Mr Warren was plowing in a field some ten miles southeast of Albany Leaving full descriptions of Cooper the party proceeded to Portland On the afternoon of the following day (Wednesday) Marshal Ryan discovered the culprit riding into town and immediately took him in custody and after the usual preliminaries proceeded to Albany with him Deputy Sheriff Brandenburg of Linn county, arrived about a half an hour after the arrest. From him we learn that the assault upon Mr Warren was unprovoked except so far as a desperate character might take umbrage at the course of law when pursued for just debts It appears that there was some business transactions between the parties by which Cooper became indebted to Warren The former was about to leave the State and the latter began suit to recover judgment for his dues Cooper then most likely took the course he has pursued for the purpose of getting even As he was locked up by Marshal Ryan he assumed considerable sang froid, and coolly told the Marshal that he wanted ham and eggs for breakfast, and before eating should require a good stiff cocktail Whether this distinguished visitor at the Hote de Gross Bar was treated with the respect he solicited is quite doubtful His horse was attached by one of the mercantile firms of this city on a debt of some standing As the prisoner was marched to the steamer on Thursday morning he attracted a greater crowd than an ordinary menagerie

Where can we get our meals at any time in the day! At the LAFAYETTE RESTAURANT First street below Stark and nearly opposite Wells Fargo & Co

DECISION REVERSED —At the discussion last evening at the Germania' Society, the Judges awarded the merit of argument to the disputants in favor of commerce as a greater promoter of civilization among the Nations than the art of printing Barman Bros unanimously concur in reversing that decision; for, they say that without the aid of printing their commerce would have been comparatively small How could they have made so much money and spread their sales all over the State without a newspaper to advertise in? With the help of the art of printing everybody has learned that the best place to buy clothing is at Barman Bros on either side of Front street, Portland

The ladies are in a glow of delight over the Family Dye Colors from the celebrated manufactory of Howe & Stevens They say the colors surpass anything at the dye houses and are very much cheaper

The University

HOMESTEAD ASSOCIATION

THE LANDS OF THE ABOVE NAMED ASSOCIAtion are situated in San Francisco and are eligibly and most desirably located, adjoining the grounds purchased by the Presbyterian University Society on which College buildings are to be at once erected The site is less than thirty minutes ride from Montgomery street; lying just west or back of the lands of the South San Francisco Homestead and Railroad Association and the Bay View Park, almost within a stone s throw of

ST. MARY'S COLLEGE.

The tract will require little or no grading there being scarcely a single lot on which it would not be safe to build without any change of grade. It commands a

Beautiful View of the Bay,

And its opposite shore, and has a soil of extreme richness So great are the natural attractions of the spot that very many of the wealthy citizens of San Francisco have already purchased, whole blocks in the same tract and design building residences thereon

The Rev E Thomas, D D,

Is President of the Association Lester L Robinson formerly Vice President of the Sacramento Railroad Company, is the Treasurer and Thomas B Lewis formerly of Portland, Secretary

Four lots 25x120 feet each constitute a share costing $315—paid in monthly installments of $10 each after the first payment of $10 has been made

Maps and books giving full information of the workings of the Association can be obtained at the store of J L PARRISH & CO

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities, CREAM OF TARTAR and SPICES of all sorts.

The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases The acknowledged superiority of his merchandise, which commands here, and in the markets of the interior, a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark seek to deceive the public, palming upon them their inferior productions for the genuine G VENARD CHARTRES COFFEE This fraud can deceive nobody after a trial, but only adds to the favorable opinion of its consumers, the very flattering though unwilling testimony of the counterfeiters Nevertheless, buyers should be forewarned, and placed on their guard against this practice

A fifteen year old youth has been arrested in Providence, Rhode Island, for forging orders on tailors and tradesmen.

The Internal Revenue receipts in New York last year sum up $35,000 000 The aggregate regular collections in four years amount to nearly $100,000,000.

The dials of the English Parliament clocks are twenty feet in diameter, the largest in the world Every half minute the point of the minute hand moves nearly seven inches.

The Tycoon of Japan, finding that some of the officials of his palace had been dishonest in administering his financial affairs, ordered harikari for all of them before breakfast

Two clippers recently made a race from Callao to Gibraltar, a distance of nine thousand miles, coming in the harbor of the latter place within twenty-five minutes of each other.

A. T. Stewart has brought a suit against the city of New York for $734, being the value of sundry gloves, crapes and scarfs furnished to the Common Council to wear at the funerals of various city officials.

President Lincoln's old home at Springfield, Illinois, is occupied by a "family who keep things as nearly as possible as they were when he lived in it." It has been visited by over fifty thousand people since the assassination

The London Register General says the change of temperature during the late "cold snap" killed about four hundred an fifty five people in London Few froze to death, but a great many died from inability to resist the effects of the exposure

An English manufacturer, lecturing to his neighbors on this country, on his return from a tour, said that one of the first memoranda which he made in his diary, after seeing the United States, was, that it was no use to send a fool to America.

A woman in Elgin, Canada East, one night lately heard a dog barking furiously at the door She followed the animal for about a quarter of a mile through the snow and found her father dying from exhaustion and exposure. The dog would scarce allow any one to approach the corpse.

A comparison shows that the market prices of provisions in London, are higher than those of the same articles in Philadelphia. Prices in London are thirty to forty per cent. higher than before the Crimean war, which began in the Autumn of 1854. It seems to be the rule, everywhere, that prices once raised never return to what they were.

On the 31st December last the Mont Cenis tunnel had been excavated to the extent of 6,374 metres, being 2,424 on the Modane or French side, and 2,940 on the side of Bardoneche. Of these 5,374 metres, 1,025 were excavated in 1866. The whole length of the tunnel is estimated at 12,220 metres, so that the work is more than half done

The Universal Israelite Alliance met in Paris last Fall, the delegations making a body of about 4,000. They are said to represent about 7,000,000 scattered over all the earth. In some portions of Asia, as in Persia, the Jews are still greatly persecuted, but their general condition, socially and physically, throughout the world, is far better than it was a century ago.

Captain Martin Page, who died in Providence, Rhode Island, a short time since, in the ninety-fifth year of his age, was a remarkable man in some respects. He was at sea forty-eight years, thirty-three of which were spent in the employ of one firm. He never attended but one public entertainment; never met with an accident, and never lost a dollar for his employers, though every vessel he commanded was lost by his successors.

Reactionary Sentiment in Montana.—We find the following in the Montana *Post* (Vigilante organ) of February 26th;

A notice, of which the following is a copy, was posted in Red Mountain City (Highland) about the 15th of February:

NOTICE!

We now, as a sworn band of law-abiding citizens, do hereby solemnly swear that the first man that is hung by the Vigilantes of this place we will retaliate five for one, unless it is done in broad daylight, so that all may know what it is for. We are well satisfied that in times past you did some glorious work, but the time has come when law should be enforced. Old fellow members, the time is not like it was. We had good men with us; but now there is a great change. There is not a thief comes to this country but what "rings" himself into the present Committee. We know you all, You must not think you can do as you please We are American citizens, and you shall not drive and hang whom you please.

FIVE FOR ONE

Information accompanying this notice convinces us that it is the platform of an organization, and that it means business It demands the consideration of the Vigilantes of this Territory. They have been, in times past, the only consideration for life and property that existed in our Territory; and history will accord them the honors for a thorough, fearless and conscientious discharge of arduous duties. It was composed of men intent upon but one purpose—the supremacy of order. For this they sacrificed their time, their money, and their personal safety, braved every danger and endured privation, exposure and peril, even to the death. They acted from pure motives, and as the Judiciary assumed power their aid was given to the Courts, and the organization existed only as an auxiliary to them, and has, finally, become passive and inactive. The organization, however, still exists, as strong in numbers and power as in its palmiest days. It is a sleeping lion; a smothered volcano perhaps to awake in anger or burst forth with redoubled vigor. The number of terrible crimes recently perpetrated within our borders has disturbed their repose, and a low but portentous rumbling has given cause for expectation. This notice, and other reliable information indicates that there exists in different localities secret and sworn leagues to resist the Vigilantes. The assertion that bad men have, in its latter day of apathy, worked themselves into it, and hold position in it, may be true. Vigilantes, your reputation is at stake; your character is assailed. If you are guilty you have but two alternatives—to die in dishonor, or to banish from your body every unclean member. The crisis is upon you. Your enemies have hurled the gauntlet in your teeth. Let not passion return the blow, but separate from the wheat the tares and cockle, that you may continue honored by the good people and feared by the bad. Whether you are active or passive, this duty to yourselves, the principles you have maintained; the history you have made, and the order-loving, law-respecting citizens who have sustained and honored you, is alike imperative. You will be strengthened by driving out an element of weakness; and if necessity demands that you should act again, let it be in the broad light of day, in the presence of the people, in the cause of the right, and strong in the high character of those who are assuming to judge the limits of life, that when your final record is written up, your character brought before the tribunal of the world, you may be honored by the verdict, *sans peur et sans reproche.*

Position of General Grant.—The Washington correspondent of the New York *Herald* writes as follows:

General Grant was to-day on the floor of the House in conversation with Mr. Wilson, of Iowa, Chairman of the Judiciary Committee. In conversation with some of the Radical members he stated, with reference to the subject of his going to the Paris Exposition, that, "he would not be found ten hours away from this city for a year to come." He spoke of the President's late trip as a mistake, and said, in substance, that no man, however distinguished or venerated, could depart from the right track and carry the people with him. In reply to one of the members that he (General Grant) would be dropped quicker than a hot potato by the people if he should deviate from the right track, he said, "I do not doubt it." Members speak of his policy as unequivocally in favor of the Congressional policy. He favored the confirmation of General Dix, as he was less objectionable than the next nominee would be, who would be a military man, and that the Senate would be forced into the position of appearing unfriendly to soldiers' interests. He said that General Dix was not wholly averse to Congress General Grant occupied the seat of Mr. Boutwell of Massachusetts, and for some time was engaged in conversation with Mr Hooper, of the same State. The report that a bill was to be introduced to-day, providing that he should be appointed Acting President in case of the impeachment and removal of the President, and the revival of Mr Kelso's resolution, declaring that the impeachment and removal of the President was necessary, are supposed to be among the reasons why he was present. These may also account for the fact that not a single Democratic member was seen to pay his respects to him

Motley.—A Boston correspondent of the Hartford *Press* gives these facts in the earlier history of Hon. J. Lathrop Motley.

"As a young man he gave brilliant promise, but wedding considerable wealth, and being in the way to inherit more, there seemed to be wanting the requisite spur to his ambition. He used to write finished and scholarly papers for the *North American Review*, and at length essayed authorship in novels. The Harpers published one for him more than thirty years ago, called '*Morton's Hope*,' which if my own youthful impressions are to be relied on, had some interest and merit. It did not succeed, however, and I have heard from those who knew him at this time that more than one successor to it after being finished went into the fire In 1849, he was induced to go into politics came out on the stump for General Taylor and was elected to the Massachusetts House of Representatives that year He wrote while in that body a report from the committee on Education which made quite an impression But he seems to have soon tired of this kind of life His becoming a historian—in which he at last found his sphere and became famous—was partly a matter of incident Some unfortunate railroad investments greatly narrowed his income, and as a measure of economy his family concluded to move abroad They went to Brussels, and then, looking about for occupation, the thought of writing the History of the Netherlands came to him He had always had some thing of a taste for historical research, his early novel and '*Merry Mount*,' a second work of fiction, published just before he went abroad, being both founded on events in early New England annals"

Fountain of Life!

THE

GREAT BLOOD PURIFIER!

IN EVERY PROGRESSIVE SCIENCE PERIODS ARRIVE when a new direction is imparted to its course through progress from discovery [illegible] light which changes the whole aspect of the science The present truth of this remark is [illegible] the theory on which it is based is destined to effect an entire revolution in the treatment of the diseases of

SCROFULA AND KING'S EVIL!

by eradicating the disease entirely from the blood The FOUNTAIN OF LIFE is composed entirely of vegetable extracts It contains no Mercury or other mineral substance.

The Proprietor and Discoverer of this Sovereign Remedy CHALLENGES THE WORLD to furnish anything from the days of Esculapius down to the present time in the arcana of Medical Science, which can vie with it in the efficacy in the cure of Scrofula. [illegible] obstinate cases of Scrofula, that baffled the skill of the most eminent physicians in the world [illegible] GREAT BLOOD PURIFIER [illegible] FOUNTAIN OF LIFE [illegible]

☞ Dr HENLEY guarantees to CURE any case of SCROFULA or KING'S EVIL in the world, and eradicate the disease entirely from the system, or no charge made —provided they will secure him his pay when they are cured

FOR REFERENCE:

I would refer you to L L Pettit, of Portland, Oregon, and numbers of others, as to what a miraculous effect it had in a short time, in cases that had baffled the skill of physicians for years

TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES

Dr Gibbon's Dispensary,

616 KEARNEY STREET, NEAR COMMERCIAL, San Francisco Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency etc Skin Diseases (of years standing) and Ulcerated Legs successfully treated

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible diseases [illegible] send them immediately to Doctor Gibbon, a physician who has made private diseases his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combated by scientific medical measures, viz Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity If relief be not obtained, consult immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure Dr G will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

Persons at a distance may be CURED AT HOME, by addressing a letter to Doctor Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co

Address DR J F GIBBON, 616 Kearney street, corner Commercial, San Francisco. Post Office Box 252.

Consultations FREE.

Prevention Better than Cure.
